\$535,000

This lovely old home has been transformed into a cosy cottage, it just requires finishing off. As you can see from the photos much of the hard work and cost of renovating has been completed including a tradesman built kitchen and sparkling bathroom. To complete the work of transforming it into your dream cottage it will require wall sheeting and painting of the lounge and two bedrooms, external painting and relining of the garage.

- Traditional two bedroom cottage with front verandah
- High ornate ceilings and wide timber floorboards
- Stunning kitchen designed and built by a cabinet maker
- Inviting bathroom and laundry area fully tiled
- Study room overlooking the rear yard
- Single garage with hardwood frame
- Small to mid-sized backyard fully fenced for privacy
- Wide access to the rear yard

This home with its warm and inviting character is more than worthy of putting in the extra work to make this your new space and address. For an inspection call Stewart on 0416 006 154.
