Range: \$335,000 - \$395,000

Once in a while a property comes along has great scope for development and embraces the creature comforts all in one. the size of this block for the asking price is enough for most to say mine! This quaint cottage style ground level home is on over 40 acres, and has great future potential. The ground level two bedroom home has a treated wood veneer, and cool tiled floors, with a new chef style kitchen will rival the best of family living in the suburbs, and gives a warm feeling of home that can be far more than a weekender. add some split system air-conditioning, plenty of water, septic system and dam, this is one property that should be on your inspection list. With an exceptionally large open shed with scope for improvement and plenty of shelving along with a great dam down the back that taps the water table and is complete with solar pump, makes this is a property that should be seen to be believed. Its time to make an appointment and come and have a look at this well located, large block with some great infrastructure. Offers over \$350,000
