The bliss of sending the kids down to the tv room while you're having a moment of peace and quiet on your generously-proportioned deck with its lush green backdrop. The bliss of having a yard for playing cricket on Christmas Day. And the bliss of a modern kitchen with copious bench space for whipping up dinner when friends from the neighbourhood drop by. This is a sound, welcoming, post-war home that's been updated in a way that celebrates its original architecture, and made into an easy-to-love abode for the modern family. We predict your favourite spaces will be the expansive deck and the downstairs tv room. Here in Stafford Heights, it's not just about the fabulous homes like this one; the schools, cafes, local restaurants, and uncomplicated access to the M5 all add up to a simple lifestyle with everything at your feet, or not too far away. **YOU'LL LOVE . . .** + Your spacious kitchen with the bi-fold windows out to the deck to pass big bowls of salad and bottles of wine, while steaks sizzle on your bbq + Having the bedrooms down the hall away from the deck and living area + Netflix and popcorn nights lounging on floor cushions in the tv room + Your landscaped front and back gardens - so easy to maintain, especially with the 3,000L tank **INSIDER'S SECRET . . .** + Having internal as well as external stairs is such a blessing!
