\$197,500

Beautifully presented studio, located on the ground floor, offering easy access in and out of the building. The apartment has new carpets, double blinds, and presents in excellent condition. The space is maximised by the clever use of a breakfast bar below the window, where you can sit and take in the awe inspiring views across the ski fields. The apartment would make the ideal winter bolthole for a couple or small family, or for those looking to take advantage of the in-house holiday rental and management service. The Arlberg is a family friendly complex, with pool, spa, bar and restaurant, and in-house rental and management service.
