Without doubt this is the best house on the Bellarine peninsula. It's north facing with beachfront at your door, no road, no traffic noise just pure bliss, sand & sea. From your sun lounge you can admire views of the fabulous You Yangs, Geelong & Melbourne city skyline. Watch the Spirit Of Tasmania pass by. The pinnacle of seaside living, there is nothing else quite like this 4-bedroom, 1bathrm residence. Captain's Cottage may seem a reclusive lifestyle however close by is the ferry service to/from Melbourne, supermarket/coffee shops/restaurants/wineries plus the newly renovated & much talked about Grand Hotel. The Captain's Cottage is so named to reflect the owner's long career on the sea. It's the last house in the street surrounded by nature. Bird life is abundant. Properties of this distinction are rare and absolutely worthy of your inspection ABC have a beautiful article on iview named 'Vanishing Beaches' highlighting the outstanding success of 'Ramblers Reef' installed five years ago in front of 114 Ramblers Road, to help the beach grow back and protect homes. <https://iview.abc.net.au/show/abc-news-vic/series/0/video/VICL2022103094428>
