\$770,000

A quality built home retaining many features of the Art deco era located in the middle of town with a Commercial Zoning offers many opportunities to become a wonderful home with the convenience of a short stroll to everything or a prominent business location with ample parking or a combination of both. Also, an ideal investment option. The property sits on a corner position of approx. 705m² and includes the original home with wide entry hall, 5 generous sized rooms, 2 bathrooms, kitchen, large laundry and a private rear courtyard. There is a separate self-contained studio apartment or office, a secure garage/workshop/storage facility, carport and 3 separate vehicle access points with established garden beds. The property also has an annual income from a Commercial Advertising sign. A variety of options await.
