\$315,000

This is an excellent opportunity in the very popular and picturesque area of Ellendale. With excellent opportunities for home building and agricultural, this largely flat, six acre (2.4 hectare) block is full of potential including sub-division into two lots (STCA). The property is Zoned Rural Living with the Central Highlands Council. There is handy access to power and mains water which are at the roadside. The property is both cleared and fenced with reasonably easy access to the river. The rear boundary follows the permanent Jones River for around 140 metres and even contains small trout. This could be the opportunity in the country you have been waiting for. Please call the friendly team at Derwent Real Estate for further information.
