\$285,000

This big parcel of land of 4.397 hectares (almost 11 acres) is ready for those who want to build their dream home and have plenty of room to move. The land features a 60' x 30' shed with concrete floor, smaller single car shed and large rain water tank. Power is available as is water via a remote meter. Several good level house site and the added bonus of sealed road access via Baluch road. A great place to bring up kids.
