\$650 per week

If you want to live in the bush, but be minutes from Banksia Grove - then look no further than 118 Coogee Road. Hitting the rental market for the first time in 13 years this property is seeking a tenant who wants heaps of room for their toys but isn't precious about the house. Being a long rectangle design the home would work for families, couples or even singles - it can be easily separated with heaps of living areas. Master bedroom, ensuite and 4th bed at one end, three living areas adjoin the kitchen, bar in one of them and then two minor bedrooms to the opposite end. Adjoining the second bedroom is a study with split system air con and can be entered from the second bed or externally with a glass sliding door to rear of home. The kitchen is the selling point and located in the middle of the home really sets the space to be enjoyed all year around. There is a shed, a small workshop space, fenced off backyard and then bush for days. We really want a one of a kind tenant at 118 Coogee road. Pets are considered. House is available to view now - but not available for lease start until mid June 2024.
