From the top end of this parkside estate, this grand tri-level residence offers space inside and out just a 2min walk (800m) to Vermont Secondary College. Its north facing position draws in gorgeous light, bringing warmth and energy to the master bedroom, kitchen and family room. An elegant array of features and finishes create a European feel with large format tiling underfoot, high ceilings used to dramatic effect, Bosch kitchen appliances and the comfort of ducted heating and refrigerated cooling. Families will love the zoning across each floor, with a versatile study or retreat alongside the double garage, main living and master bedroom at ground level and further bedrooms upstairs with glimpses of the mountains from bedroom 3. Where unit 12 offers the benefits of a house is across its lovely big open plan setting which opens to a magnificent garden - big enough to grow veggies and set up with a covered deck, large rainwater tank and north facing clothesline for quick drying. Polished presentation throughout adds to the shine at this supersized town residence in the school catchment for Vermont Primary and Vermont Secondary (STSA), on the fringe of beautiful parkland, transport connections by bus, train and tram, and fabulous shopping and dining options at Eastland, Vermont South and Westfield Knox.
