\$395,000

There is plenty on offer with this perfectly located three bedroom two living area family home. As we all know Donnington Street is a very popular residential location and for very good reason. Buyers looking for a well designed three bedroom (master with ensuite and private deck) home should book an early inspection. The style of the home and the very realistic asking price combine to provide buyers with plenty of value on all fronts. The asking price reflects the requirement for some minor repairs/upgrades however overall this is a very comfortable home. The living space is further enhanced by the addition of a spacious outside deck which is perfect for entertaining. Should you be looking for an investment home - again 12 Donnington Street is more than worthy of your consideration. In short a desirable three bedroom family home in a delightful residential location.
