NEW LISTING

Enjoy panoramic vistas across the hinterland towards Maleny from this beautiful half-acre property. Located on the edge of picturesque Palmwoods, with its artisan shops and numerous cafes, 12 Nicklin Lane offers the best of tranquil country living within easy access of the coast's best beaches, health facilities, schools and transport links. Some 60 acres of surrounding farmland ensure uninterrupted views and absolute tranquillity. Yet you're just 12 minutes from Buderim and within 10 minutes of several top schools, including Sunshine Coast Grammar School and Nambour and Suncoast Christian colleges. Impeccably renovated by its current and previous owners, the original double-brick home has been transformed into a Hamptons-inspired residence with gorgeous 11.5 x 5.5m pool, surrounded by established gardens of fruit trees, veggie beds, lawns and tropical planting. Stepping through the front door, to one side is a formal front lounge with Masport wood-burning fireplace, offering expansive vistas across the surrounding landscape. To the other side is an office with built-in storage, providing excellent work-from-home space. The welcoming entrance hallway leads through to an impressive dining and kitchen area opening onto wraparound decks with more sensational country views. Engineered European oak flooring, raked ceilings and quality finishes feature across the central living space of this split-level home. The kitchen boasts integrated Italian appliances, including a 900mm Ilve gas hob and electric stove. Handmade tile splashbacks, custom cabinetry and Carrara marble stone benchtops all feature, and an oversized servery window opens to create a bar on the eastern patio - the perfect spot for entertaining overlooking the surrounding landscape and huge pool. The four queen-sized bedrooms all offer plantation shutters and pure wool carpets. They include a luxe master with bath ensuite and walk-in wardrobe, and two upper-level bedrooms with built-in wardrobes serviced by a chic family bathroom. Stepped down from the main living area is a spacious second living room, another sizeable bedroom, a stylish third bathroom and a well-equipped laundry/mudroom, ensuring easy separation if you're in need of guest accommodation or a teen retreat. Outside, a covered walkway leads through to a characterful three-bay garage with workshop, part of the original pineapple packing shed from back when the land was farmed. The established private gardens offer an array of mature fruit trees, including orange, mango, banana and cumquat. You can explore the paths winding through the tropical planting or head straight down to the Negrone deck for an evening sundowner, visited by the horses in the surrounding paddocks and encompassed by the absolute serenity of this special home.
