Tucked away at the end of a quiet cul de sac this deceptively large family home provides a very comfortable level of accommodation. Entrance hallway opens to study on the left and master bedroom to right that includes both walk in robe and full ensuite facilities. Further on is the formal living room and at the end opens out to a huge open plan kitchen family second living room. This all overlooks the rear north facing gardens together with accessing the enormous undercover alfresco entertaining area. Three bedrooms in all the second and third with BIRs, all have ceiling fans. Kitchen enjoys stainless appliances, there is ducted heating throughout plus a split system air conditioner in the family area. The double remote drive through garage has direct internal access. Undoubtedly a massive plus with the location is the immediate access to sport and recreational precinct and a short walk further to the main Leopold shopping centre. This is certainly one that should not be overlooked and we encourage your early enquiry. PLEASE NOTE: Photo of the rear garden has had virtual grass added.
