Lifestyle - Prestigiously located within the Mirvac built 'Seaview Rise' estate, this opulently finished family home captures a majestic outlook across the area's lush greenery. The luxurious residence presents as-new throughout and has had only two owners to date. Peaceful, private and substantially sized, it offers an incredibly relaxing lifestyle with schools, shops, cuisine and recreation all minutes away.
Accommodation - Flawless interiors feature spacious living and dining areas with an attractive blend of timber floors and polished tiling. Outside, there are beautifully manicured hedges, tiered level lawns, fountains, an entertaining courtyard and a master balcony with spectacular views to the ocean which is great for stargazers. All bedrooms are well proportioned and the home enjoys access to a heated pool and spa with an adjoining barbecue pavilion.
Features - The gourmet granite kitchen is fitted with deluxe Smeg appliances, while the designer bathrooms are tiled floor-to-ceiling. Other salient features include ducted air conditioning, super efficient solar panels that significantly reduce electricity usage, office, good storage and a double garage with internal access. Architect designed to an impeccable standard and enviably located within a short drive to the beaches, this is a truly outstanding opportunity.
