\$830,000

Welcome to 13 Horton Street, Horton - A beautiful 5 Acre estate in the heart of Childers, offering endless possibilities. You're invited to make lifelong memories in a home that blends happiness, sophistication, and tranquility. Offering plenty of space, sheds and land for the family, pets, hobbies, and all located within a short 45 min drive South of Bundaberg & 8 min drive to Childers. With nothing to do, except move in, you will want to call this home! Driving up the tree-lined driveway, you will feel a world away as you take in this stunning property's abundance of space and tranquillity. You will take in the surroundings with a sense of calm and serenity. It doesn't matter whether you're sitting inside or out on one of the patios; it is a peaceful setting to call your new home! The heart of this home is undoubtedly the main living zones, encompassing the well-equipped family kitchen, living room, dining room, large office space and parents retreat. You will be amazed as soon as you walk through the door, with ample natural light, spacious rooms, and warm touches that compliment the overall feel of the home. The balanced floor plan has been designed to harness all unique opportunities - such as large living spaces with spectacular views over the yard and the outdoor entertaining area. The kitchen is the ideal environment to cater to any occasion, bringing your loved ones together over a home-cooked meal. Spacious in size, boasting quality appliances, and ample storage, you will love the design. Make the most out of entertaining all year round, with effortless flow from indoor to outdoor entertaining. From the sweeping verandah across the front of the home to the rear patio overlooking breathtaking country surroundings, the outdoor living area on offer is a dream come true with roller blinds to control the outside elements. With 5 acres of usable land, the opportunities are endless. You could add a private pool at the rear or front of the property. This property even has a fenced off space for a horse paddock for your larger four legged friends. The oversized shed is the ultimate zone for the home handyman and offers storage for all of life's inclusions. With the right height for under-roof storage for cars, boats, and caravans, there is nothing this space can't accommodate. Some other of my favourite features include: *Huge parents retreat complete with lounge room, master bedroom with ensuite, walk in robe *Open plan kitchen dining and
