\$875,000

Located in an elevated position with a gorgeous outlook to Woodford Island across the valley, this spacious brick family home is cleverly designed to take full advantage of the stunning Maclean hillside position. With generous living space spread across two levels, there are multiple entry points via the double lock-up garage or glass doors to the downstairs area or by the main entry to the upstairs front door. Beautiful hardwood timber parquet flooring is the feature on entry to the open plan kitchen and lounge room. Natural light fills the well-equipped kitchen and there is a practical servery and big sliding doors opening out to the large timber entertainment deck for when family and friends get together at yours. Kids or guests are accommodated well in either the two upstairs bedrooms or one below, and parents enjoy a large master with bay window, walk-in wardrobe and ensuite. The family bathroom is a great size, laundry is a big practical space with good storage and there is many timber highlights throughout. Outside, the backyard is terraced and easy to maintain with a large timber deck being a private, peaceful place to spend time. There is a handy shed for garden tools and the front verandah captures the breeze and views to the river perfectly. If you work from home or need a separate space to operate from, the lower level of the house provides a fabulous place to set up business as there is a private access away from the main living area and a toilet is also located on this level. This is a great property to suit a variety of buyers whether owner occupied or investing for the future. Live-in or lock-up and travel. Call Fiona Beamer to arrange your viewing.
