Central and Charming describes this lovely home. Unfortunately, the October floods last year shattered the young couple's dreams so they have decided to sell their lovely home. The property has been made safe and sanitatised throughout. The home features three bedrooms, lounge with open fire place, kitchen dining area, bathroom with second toilet in laundry. The old world charm of this red brick home being decorative ceilings and lovely etched glass timber doors are intact and in good condition. Externally, the property features a single garage, side access to a great shed complete with power and concrete floor, and a 6.5kw Hems solar system. So, we are calling on any renovators, builders or keen investors to complete and bring back to life! Property Code: 4516
