**\$550,000**

Cam has found this Queenslander style home in an elevated position on acreage just a few minutes drive to the beach, new shopping centre, christian college and 3 more shopping centres. It does needs some work. on the positive side it is a very solid hardwood home on very solid treated stumps moved from Bundaberg about 20 years ago and they relocated on the pick of the blocks in Cove Estate, with over 4 acres and a 2 street frontage to Whyte Cres and the Popular Anderson Way! So with some of the best bones you will find. ARE YOU UP FOR IT? Bonus features internal staircase! (for those that have a need for the ground floor to be enclosed later) saves on cost. Would make a great Reno starter for someone willing to roll up their sleeves and make this a real family home! The current owner has started. He is ready to move quickly, are you ready?
