Resting peacefully in a quiet corner of 'Cottesloe/Claremont Hill' is this substantial family Residence. Significant in scale and reflecting meticulous attention to detail, coupled with a distinctive and contemporary design - is a home that has been inspired to reflect a seamless integration with lush green tropical gardens with interiors that flow effortlessly from inside to out. An abundance of living spaces and bedrooms (along with a 10-car garage and workshop) didn't inhibit the architect's ability to capture a sense of homeliness and intimacy, with a palette of warmth delivered from the timber and stone that merge effortlessly with gardens that float beautifully into the home. A stunning home offering numerous living spaces that reflect an ambiance that feels akin to an exclusive hotel residence, the outdoor living zones are just as enticing, as the idea of long nights and mulled wine around the outdoor fireplace, to summer days in the pool as the barbecue creates gourmet meals, will soon become a part of the wonderful lifestyle this home offers. Designed with meticulous detail to quality, light and space, tranquillity and calm - the reflection of all these ingredients are wonderfully evident as you wander through rooms that feel chic and lux. Both contemplative and exciting, vibrant and peaceful, the ambiance of the home moves and subtly shifts as you meander from room to room. The master retreat opens out to its own private garden terrace, as does the ensuite. The executive office and sitting area is one of the many living areas that have been designed with bifold doors that blur the boundaries of indoor and outdoor living seamlessly, thoughtfully and beautifully. The many outdoor terraces which are surrounded and framed by gardens for moments of contemplation - collectively offer an arrangement of beautiful spaces to relax and love. A rare and magnificent home of style, grace and refined luxury. This is a home offering a lifestyle well beyond the amenity of the home, to a feeling of gratitude, and all that is captured within the essence of family living.
