Heritage charm with gardens, courtyard, carport and three bay shed on a huge block, this property is ready for a family, while offering huge potential. Bull-nosed veranda overlooking a native garden, leads to an entrance hall with storage cupboards, large light-filled lounge room, two large bedrooms and a smaller kids bedroom. A renovated kitchen in powder blue, with a central workspace, pantry and inbuilt wine racks, leads to a long slate floored sunroom or office, flooded with light overlooking a courtyard. Heat pump and wood fired heating make this a cosy home. Dual driveways lead to a carport with glass bricks to the north and a generous three bay shed to the south, accessed by three roller doors. Situated on a large block, there's room for vehicles, your workshop, boat or more gardens. Solar panels, rainwater tank, wood shed and vegetable beds are added features. Located on the northern edges of Currie, this home has endless possibilities to further renovate or subdivide (STCA).
