Two street frontages always mean one huge opportunity – and this original two bedroom property provides precisely such an opening in a Footscray setting of enormous lifestyle appeal. The current residence's basic spaces, including a generous lounge and separate central kitchen/dining area lead to the block's rewarding rear dimensions and Liverpool Street frontage, with ROW crossover access already in place. Proximity to a range of great local assets including Barkly Street shops, brilliant cafes, Whitten Oval, Footscray CBD and the new Western Hospital precinct complements an address offering ideal options for renovation and/or dual occupancy re-development, STCA. Rare anywhere, remarkable right here!
