\$545,000

Conveniently located in the heart of town this lovely home has much to offer the growing family and is literally within a stones throw from the shopping centre and local primary school. Featuring three double bedrooms with polished floorboards which also extend through the hallway and the huge living area complete with the original high ceiling height this home just oozes country charm. A double sided combustion fireplace is a practical feature and is complimented by reverse cycle air-conditioning for those warmer days. The spacious kitchen offers ample bench space for food preparation and plenty of storage and leads through to the rear of the home where there is an additional study and what was a sewing room. Stepping outside off the shady rear verandah the gardens are fully fenced with under cover parking for at least four cars provided by way of a double garage with attached double carport.
