Offers from \$499,000

Get creative and get to work bringing back to life this diamond in the rough. Virtually untouched since built in 1962, the property has "solid bones" with lots of in-built potential. The layout is simple and practical with big rooms, high ceilings and jarrah floor boards. It's easy to see how easy this home can be transformed from simple cosmetic improvements. But it's the sprawling outdoor space that sets this property apart. Set on commanding corner block, you'll have all the space you need to create an outdoor sanctuary from the current black canvas. A secure land value investment with undeniable "upside".> Traditional 60's style "duplex"> Zoned R20 Residential > Solid double brick construction> Original retro styled kitchen and bathroom> Large open plan living zone> Double sized bedrooms> Exceptional outdoor space
