The vision for One Sydney Harbour is a masterpiece built on collaboration. It is the second partnership between Renzo Piano and Lendlease in Sydney. Aurora Place, their first work, stands as one of Sydney's most loved skyscrapers. Inspired by crystalline forms, One Sydney Harbour floats between the built and natural environments, providing a gentle presence in the cityscape that rises from the shore. The residences have an ethereal and translucent quality and are in constant dialogue with the natural beauty of Sydney Harbour and dynamic form of the city's CBD.
