As you approach this property, the unassuming frontage gives little away about what is really going on behind closed doors from a design and presentation perspective. Although, the spacious front deck does provide a teaser, as to what will be revealed. The high ceiling home's wide entry makes quite a statement, drawing your attention to an elegant double glass door media room complete with a cinema screen and projector. More fashionable glass doors open to the glorious living, dining and galley kitchen zone overlooking two brilliant decks, including a main enclosable area, with a quality outdoor kitchen and oven. Dine outdoors with friends and family or savour a Sunday soiree and enjoy the picturesque backyard. The bulkhead ceiling, glass splashback kitchen is a stand-out and sure to result in some inspired dishes. With quality cooking appliances, excellent bench, storage and fridge and freezer space, you really cannot go wrong. Long for a little luxury in your master suite? This home delivers once again. The bedroom is huge and there is a sweeping bank of robes and a luxe ensuite, with twin showers and basins and a separate toilet. If a dedicated office is a priority, this home has that too, and a quality family wing featuring a mod bathroom and good storage in the spacious laundry and bedrooms. The backyard is a delight, with its charming hen house and gardens, and a powered 1.5 shed with a patio. The drive-thru d/b garage flows to an extra bay. A must view for genuine, discerning buyers.
