In the centre of town, just a short walk to the main street, golf course and Narooma Public School, this 4 bedroom home has room for everyone! Set over 3 levels, the layout is versatile and can be adapted to suit your needs. On the street level you will find a double garage with internal access, laundry with extra toilet and an open, light and airy lounge/dining/kitchen area. On the next level down, a sitting room (with TV point) has a built in aquarium separating it from the home office. What a great place to work from home! This level also contains 3 bedrooms, main with ensuite and walk in robe, recently renovated bathroom and access to the outdoor patio and BBQ area. The lower level has an additional sitting room/TV room and bedroom 4, which also opens to the yard outside. This property represents great value for money with not many homes of this size available in the centre of town. It also has a solar system feeding back in to the grid to keep those electricity bills low.
