Experience luxury family living at its finest with this immaculate Todd Newman built home. This contemporary and sophisticated residence is situated in a highly sought-after neighborhood, less than 10 minutes from Bendigo CBD, and only a stone's throw from Kennington Reservoir, childcare centers, supermarkets, and cafes. Boasting four generously proportioned bedrooms, two bathrooms, two living areas, and a study, this home offers everything a family could need. The master bedroom is a true sanctuary with a sensational walk-in robe/dressing room and luxurious ensuite complete with twin vanity units. The remaining three bedrooms are also spacious, two with walk-in robes and one with a built-in robe. A modern main family bathroom and a separate toilet complete the sleeping quarters. The front area of the house has double doors that can be used to create a private space that can serve as either a playroom or a movie room. The laundry room has been designed ingeniously to provide multiple storage options, a drying room, and a way to access the backyard, which houses an impressive wine cellar. The central hub of the house is a well-stocked kitchen, complete with opulent Caesar stone countertops, a stainless steel oven, and a large island bench. The open-plan layout of the kitchen, living, and dining area boasts high ceilings, Tassie oak flooring, and a spectacular view of the backyard. Additionally, a generously sized walk-in pantry with soft-closing drawers and plenty of storage space is conveniently situated near the kitchen. Enjoy year-round entertainment by stepping outside through the sliding glass doors to a fantastic space. This area includes an outdoor fireplace and BBQ area, which overlooks the electric and gas heated inground pool. The lush lawn and landscaping surrounding the pool provide ample usable space, and there's potential to add personal touches. In addition to these outdoor amenities, the house is packed with noteworthy features such as refrigerated cooling, ducted heating, solar panels (approx. 20), wine cellar, study, and a garage with direct access to the house.
