\$550,000-\$575,000

A large corner parcel of land 1049m² approx, located 200m from Hazelbrook Village with a 27m frontage and is 34m deep approx. It brings the true meaning of convenience to life with walking distance to medical services, shops and the Hazelbrook train station. It currently is R2 zoning - low density residential under draft LEP 2013, all services are available including natural gas and it is suitable for dual occupancy, subject to council approval. This brings great opportunity to this block and makes it an ideal investment. Great block with great potential and many opportunities under the NSW government medium density housing program.
