\$390,000

Nice family house situated close to Manjimup Senior High School and Primary School, Aquacentre and sports precinct. Situated on a 1700m² block of land this home has a roomy outdoor area, ideal for growing veges, fruit trees, chooks or just perfect for the young family to set up a great playground. The house itself features 3 bedrooms plus a nursery or office. The kitchen is serviced with gas cooker and opens onto meals and lounge area. Reverse cycle air conditioner for heating and cooling. Enclosed back verandah area which gives you a 2nd living area and 2 built in cupboards for storage. Solar hot water system. There is an external storage room which has potential to be renovated into a studio and a lock up brick work shop or garage with power, concrete floor and access with 2 roller doors. Definitely the ideal mens shed. This house is tucked away in a quiet street yet close to all the essential facilities for the family with school aged kids. It has the added advantage of the big block which is pretty sought after in today's market.
