\$1,280,000 - \$1,350,000

Nestled amid a beautiful and supremely private 650m² (approx.) garden oasis, this home truly soothes the soul. Meandering garden paths weave through a leafy natural haven with suntraps and quiet garden nooks to explore, leading to an alluring chalet-style home where connection with the natural world seamlessly continues. Timeless style and a relaxed ambience pervade the interior, featuring vaulted ceilings, rich timbers and leadlight accents throughout. The multi level design delivers 4 robed bedrooms (main with modern ensuite and walk-in robe), 2 family bathrooms and a fabulous mezzanine study/retreat. The spacious meals/living zone links to a gorgeous elevated balcony, while a downstairs family room extends out to a covered alfresco and the solar heated swimming pool. Gourmet inspiration is plentiful in the modern kitchen equipped with quality appliances, stone benchtops and soft-close cabinetry, while additional features include ducted heating, split system air conditioning, gas log fire and scope for independent living. Outside you'll be inspired by the choice of alfresco dining options, lush gardens and enticing in-ground pool, along with practical elements such as the double carport, garden shed, under-house storage and water tanks. A short stroll to Bolton Street shops, bus, Eltham Lower Park, Eltham High and Eltham Primary School – this is the ultimate in Eltham living.
