\$200,000

Sited on a very comfortable 716 m2 parcel of land (approx) and within walking distance to the CBD, is this 3 bedroom lowset Queenslander with the added bonus of convenient side access. There is a good sized 2 bay shed under shady mango trees in the spacious rear yard, the ideal spot for the kids to play or to contain the much loved family pet. The practical kitchen has plenty of bench and cupboard space for the chef of the household whilst the bathroom is functional and offers plenty of room to move. All 3 bedrooms are roomy in size with 2 featuring built in robes. Downstairs at the rear of the property is a sizable laundry area with ample storage space. The home is in need of some TLC but you will not find a better location with the property positioned an easy walk to Bowen's harbourfront parklands and the CBD area of town. This property is the ideal first home or renovation project to add to your investment portfolio, so make sure your finances are in order to bid on auction day. Contact the PROFESSIONALS today to arrange your personal inspection of this comfortable home with loads of potential!
