Nestled amongst new builds & ready for a new life, this fabulous single level home with a large rear yard is perfect for the renovator or family looking to build their dream home on a spacious block. Inside the home there are relatively new timber floorboards throughout & an open plan living/dining area. There are 3 bedrooms with plenty of natural light. The rear yard has established gardens, a garden shed & the ability for someone with vision to re-create something wonderful. There is also a wonderful side courtyard where you could establish a lovely sitting area to relax with a drink & read the weekend papers. Close by are schools, shopping & public transport routes. Harbour Town Premium Outlets are 5 mins away. If you love the boating, the Broadwater is very close with a few local boat ramps to launch your pride & joy. This one won't last long!
