Concealing an unrivalled entertaining footprint and thoughtful appointments, this sumptuous family home of generous proportions exudes an understated luxury as a string of entertaining zones capture an elevated living experience with substantial swim spa, theatre room and expansive alfresco zone. Unassuming from the front with a private front fence and gate, the single-level design opens beyond a private master suite (generous WIR and dual-vanity ensuite) to reveal a central kitchen where functionality sits at the heart of design. Stone finishes, 900mm Technika oven and cooktop, a light-filled walk-in pantry and a huge island bench presents a foundation for culinary excellence, before a free-flowing dining and lounge revel in the warmth of a large-scale gas fireplace. Spotlighting a built-in bar and pool table beneath a pitched roofline, alfresco prestige stakes claim across the rear yard, completed by an intimate private fire pit zone, elevated swim spa, and sprawling alfresco space. Rear access for trailer parking or caravan (pop top only) storage hides behind a feature fence, accessed via rear double garage roller door. Complete with home theatre, three junior bedrooms and children's retreat (third living zone), plantation shutters, central family bathroom, large laundry room, additional off-street parking and stacked stone facade with private front garden, this lavish family home found within walking distance to Bittern Train Station and local shopping precinct combats seasonal changes with gas ducted heating and evaporative cooling.
