\$880,000

Positioned perfectly in one of the quietest areas of Wallan is this spacious and very well presented family home on a level block. With three bedrooms, the master has a large ensuite bathroom with a bath, shower, vanity plus there is a walk-in robe. The other two bedrooms have built-in robes and have a full family bathroom and separate toilet. Both of the two living rooms are large and roomy with one having a formal dining area. The central kitchen is also quite spacious with plenty of storage for all of your kitchen essentials and features a 900mm gas cooktop, electric wall oven and excellent views to the rear yard. There is also a full length verandah and an alfresco area that is great for shade on those hot summer days. For your vehicles there is plenty of room with a long circular driveway, and two two-car garages. Your kids and pets will love the space with loads of room to run around on this large block of over an acre. The well established part of Wallan is very desirable with quality homes, quiet cul-de-sacs, generous blocks plus it is in close proximity to the main centre of town. Wallan is one of the most popular areas in the northern corridor due to its established infrastructure, schools, shops, medical facilities and great access to the city via the V/line train and the Hume Freeway.
