You'll know you've found your way home when you enter the quiet, modern ambience of this well-presented home. Featuring separate living area options, harmonious living is the obvious result. The well-appointed kitchen is surrounded by an lounge and dining room either side. Living area is air conditioned and there is ceiling fans throughout. The generous main bedroom has an ensuite, and all 4 bedrooms have built in wardrobes. As expected, there is integrated garaging, outdoor living, privacy fencing enhanced by the convenience of a walk to school address. Keep your time free for living. With a tenancy finishing in November the time is right for an owner occupier or continue as an investment. This is the one you should inspect if you're not into home improvement.
