Properties in this highly sought after exclusive area of Hidden Valley rarely come onto the market and when they do, those in the know snap them up quickly. You know what they say...location, location, location! Situated near the very end of the cul-de-sac a literal stone's throw from Lily Creek in Mirima National Park, this brick three bedroom one bathroom home is tiled throughout, has split system air conditioning, plenty of storage space, an upgraded kitchen with gas upright stove, large fridge recess, and breakfast bar. A spacious separate lounge room away from the central kitchen/dining space provides multiple living and entertaining spaces for the family, not to mention the great outdoors which features a huge outdoor undercover patio, below ground spa (also undercover) and fantastic new shed with double garage & studio space with bathroom, ideal for teenagers retreat, home gym/work out space, games room or granny flat. The shed has been located well to allow secure off street parking for cars, boats, camper trailers and the like and despite the size, nothing has been sacrificed here with plenty of backyard space available for kids and pets to run around and room for the cubby house, chook pen, swing set or trampoline as well. Available to move into and call your own, if you are on the lookout for a home to call your own in a great location, this is the one.
