Price Guide \$850,000 to \$900,000

Surrounded by nature, with picturesque water views and backing onto the beautiful Hastings River, this property presents a lifestyle and location you will fall in love with. If the spectacular setting isn't enough, then wait until you step inside and see the chic, fully renovated interior that is like something of a designer living magazine. With cutting edge, contemporary coastal finishes, exceptionally high-end quality and a gorgeous feel, this home is a step up. The cleverly designed, completely level floorplan sees the grand master bedroom suite and further bedrooms positioned in separate wings, with an expansive main open living zone at the heart. Upon entry, you walk into this huge main living area, where wide-open dining, study and spacious lounge zones offer very comfortable living and look out to the lush back yard and river reserve beyond. Here a real feature is the showstopping, luxurious kitchen that features broad 40mm stone bench tops, gorgeous shaker cabinetry, chic brushed brass tapware and the ultimate walk-in butlers' pantry. Beautifully styled and incredibly functional, this is the perfect hub for everyday family living. To make the most of the outdoor lifestyle, this area flows straight out to the expensive, fully covered deck area, which is a great place to relax in the tranquillity, soaking up the nature and looking out to the river, whilst also providing the perfect place to host the largest of family get togethers. A large back yard provides plenty of space for the kids/ pets, but even better, if you walk out your back gate, you cast a fishing line, crab trap or kayak directly from the riverbanks beyond. Back inside, there are plenty of extra living options. A large rumpus/ media room is adjacent to the impressive master bedroom suite. The master featuring a large walk-in-robe, leads to a stunning ensuite bathroom, finished with brushed brass tapware, floor-to-ceiling tiling and custom vanity. To the far wing, there are two further, spacious bedrooms with ceiling fans and built-ins, that are serviced by an ultra-trendy, family-sized bathroom with sophisticated freestanding bath, huge walk-in shower and again beautiful floor-to-ceiling tiling. In addition, there is a built-in study nook and a large storage/ study room, which could easily be converted into a fourth bedroom (STCA). Extra features of this home include ducted-air, engineered timber floors, plantation shutters, solar power & hot water and a level of maintenance and quality finish rarely found. Homes offering this level of finesse, functionality and total lifestyle are extremely difficult to find. With the home having benefitted from a total renovation and to the highest standards, you can just move in and start enjoying the lifestyle from day one. Sure to attract A LOT of attention, contact Sarah & David today and make this your happy ever more on the North Shore.
