Designed by distinguished architect Phil Darwin, 15B Burgess Street Kings Beach was built to impress. 4 Bedrooms, 4 Bathrooms and 7 car spaces take advantage of the luxurious elevation. The elongated design flaunts unobstructed 360 degree views over two stunning beaches, with each level expanding out underneath maximizing living areas and allowing a continuous flow of space. This impressive home boasts a 25 metre signature lap pool with 7 port holes filtering natural light into the sunken lounge and games room. Situated on a grand 1,106sqm elevated block, this home was built with supreme quality and the entertainer in mind, with fully equipped bar, outdoor pizza oven, large gym, steam room, rooftop putting green, four person elevator and fully equipped guest house. Phil Darwin has designed this home to capitalize on cross-flow ventilation and sea breezes throughout the entire home, with a spacious open plan kitchen, 5m island benchtop, ethanol fuel fire place and a mixture of polished concrete and timber floors. Arguably one of if not the best property in 4551, this rare opportunity to secure a property of this caliber awaits.
