\$650,000 - \$710,000

Close to everything, these villas are always popular! Cathedral ceilings, generous rooms and a village-like community ensure they are in hot demand, and this one is right out of the box! Idyllically located at the rear of the group and having had plenty of love lavished upon it, this one stands out from its rivals thanks to a truly sensational alfresco deck. Protected from the weather and stretching the full length of the home, this fabulous area practically doubles the living space and provides a fine backdrop for year-round entertaining - the built in Caesarstone bar complete with mains plumbed BBQ is sure to be a crowd-pleaser. Back inside, the immaculate kitchen enjoys private outlooks and wraps effortlessly around to a light-lavished living and dining room where those high ceilings take centre stage. True doubles, both the super spacious bedrooms feature ample fitted wardrobes - one with ceiling fan - these appealing rooms share a stylishly renovated bathroom with huge walk-in shower and stone vanity. Including threes split systems, separate laundry plus auto garage and additional parking, this one asks for nothing except a sharp first-home buyer or on the ball investor to come and snap it up!
