\$580,000

Infused with industrial flair encased by concrete floors and exposed concrete ceilings, this eye-opening 2 bedroom 2nd floor security apartment brings a bold sense of distinction to this beachside locale. A breath of fresh air and natural light with its window wall on the north eastern side, this substantial apartment features an inviting entry hall with European laundry and storage, a super spacious living and dining area with an über chic kitchen (modern black glass cooktop and Bosch dishwasher), a private main bedroom (built in robes and gleaming ensuite) and a sizeable 2nd bedroom or home office. The sun splashed balcony is your space to kick back with a morning coffee after a swim at the beach. A neutral palette to add your own pop of colour, this illuminated apartment is ready to go with reverse cycle air conditioning, an intercom, lift access and secure undercover parking. One block to the beach and lifesaving club, a quiet stroll to the café culture and gourmet dining on Bay Street and Victoria Avenue, with a peaceful collection of parks to enjoy, the Saturday farmer's market to explore, complete with the convenience of Albert Park College and city-bound transport. • Well proportioned edginess • North-east orientation • Reverse cycle air conditioning • Secure undercover parking • A heartbeat to the beach
