Situated on the Banks of the Hastings River is this cute one bedroom van and annexe, a 15 minute drive into the heart of Port Macquarie. If you enjoy the quiet life and love fishing, then this place will be of interest. For the money this property has a lot to offer. There is a good sized lounge and dining area off the kitchen, the bathroom has a shower and loo. There's a single carport and a garden shed for extra storage. The village has high river banks and avoided the worst of the flooding a couple of years ago. The village has a boat ramp directly into the river for easy access and a swimming pool. The river has good fish stocks with a deep hole right near the boat ramp with Bream, School Jewfish and Flathead regular captures.
