\$345,000

This well presented family home is located at the top of Allman Street. The home features a good sized living room with split system air conditioning and a wood heater. A generous kitchen and dining area adjoins to the living area giving an open plan feel. The three bedrooms are set privately away from the living zones and all have easy access to the family bathroom. The large living area at the rear of the home provides another excellent space and could be used as a 4th bedroom easily. Double shed with concrete floor, power and lights is further complimented by other shedding. This is a great value home with all it has to offer. Inspection by appointment.
