\$665,000

A tasteful, near new GJ Gardner built home set on approximately 830sqm, with side access through to an additional 12m x 7m Colorbond garage with 3m high eaves. • A wonderful floorplan that sports an edgy urban vibe throughout. • Comprising four bedrooms and two living spaces. There is a convenient study in the central living zone which is well decked out with joinery. • The master bedroom is positioned off the central hallway and features a walk through robe with his and hers sides through to a stunning ensuite with floor to ceiling tiles. • Bedrooms 2, 3 and 4 are all positioned off the central living space, and all offer built in robes and nearby access to the incredible family bathroom. • The rear living zone is light filled and open plan, with the vinyl plank floors setting off the black roller blinds and feature pelmets. • The kitchen is an absolute cracker! Black stone counters with a waterfall end, quality appliances and a sharp splashback design. • Alfresco entertaining space overlooks the expanses of the yard for the kids and pets to roam and play over the 830sqm allotment. • Outside is where we truly excel. Wide side access through on another concrete driveway to the additional Colorbond garage, 12m x 7m with 3m eaves (2.55m roller door clearance). • Direct access from the double garage into the home. • Something for the whole family here. A ripper set up.
