An architectural extension by Matt Gibson Architecture breathes new life into this four bedroom two bathroom Victorian delivering a superbly modernised family home, showcasing exclusive finishes through a bold open plan domain. Double bedrooms with fireplaces complemented by skylit designer bathrooms, master with ensuite and WIR precede a bold extension where a pop of yellow on a statement sliding door marks the transition from old to new, and the new is simply stunning. Custom cabinetry, black framed windows and a stone encased Jetmaster open fireplace feature in a striking open plan living domain where stacker doors, oriented northwards for its wonderful light offer seamless access to an entertainer's deck complete with a stone topped outdoor kitchen and retractable awning, landscaped gardens by Peachy Green and sparkling in-ground pool. Marble counters in fabulous island kitchen nod to the home's heritage, while the 900mm Bertazzoni range, Smeg oven, Miele dishwasher and walk-in pantry will impress the keenest cook. Excellence continues through polished hardwood floors, double glazing, laundry with a drying cupboard, heating/cooling, custom lighting, huge shed/workshop and ROW access to the rear. Zoned to Northcote High and situated in a premier pocket where access to Westgarth and Fairfield Villages, transport and Yarra parklands is easy, this consummate entertainer promises flawless family living.
