Convenience Plus

There is a lot of value and options here with this 4x3 brick and iron home perched on the high side of Christina Cres with pleasant views to the inlet and just 1km to the centre of town. Over time the home has benefited from a renovation transformation with neutral décor throughout the living area complimented by a modern kitchen with its large oven. Reverse cycle air conditioning and a wood fire provide convenience and comfort. The top level has a generous sized wrap around veranda with stainless steel balustrade. The separate self-contained studio underneath is an absolute bonus for friends and family options. The block is 926sqm and is home to both a good sized front and back yards including the powered garage/workshop with separate driveway access. Nearby there is a great park and bushland with trails. Overall a good blue chip property. The lucky tenants have a lease in place until May 2023.
