This old style two storey beach home has plenty of potential. The location is well sought after and there are some ocean views from the first floor level which could be further enhanced. Some parts of the home have been renovated and offer two bedrooms on each level and bathrooms on each level. The main living and kitchen are on the first floor with an elevated aspect all round. The side driveway leads to a shipping container garage with a great undercover deck on the north side. The rear yard is a beauty. Fairly level, sun filled and a great place for the kids to play or you could even go down the track of a granny flat if that's your desire. A selection of great beaches and cafes' are just a short walk from this handy location. Don't miss this one. Give me a call to book your inspection.
