\$219,000

This neat studio apartment has very low annual outgoings making it ideal for someone looking for a winter bolthole or Mountain staff looking for accommodation, with the potential to rent short or long-term for a healthy return. The apartment has an updated kitchen, bathroom, and flooring, and is located in an elevated position, offering spectacular views across the ski fields from the floor-to-ceiling windows and the communal decked area. Fountains apartments are located next door to the Arlberg, approx. 500m from the Village ski lift and all the village amenities of Hotham Central.
