\$498,500

The big-ticket items of kitchen and bathroom have had a great makeover giving this home a definite "modern feel". The home is featured by that kitchen. The culinary enthusiasts will be thrilled by the both the size, the bench space and the appliances, and all set in a modern open plan design, encompassing the dining and living areas. You will be greeted with spacious and modern bathroom and bedrooms, all with spacious built in wardrobes. You will be spoiled with two exterior entertaining areas being a deck at the rear of the home and undercover area beside the garage. A great backyard for the kids and pets to play makes it a great family home. To further enhance the renovation the home has been rewired, a 3-kw solar power system has been installed, a new roof and guttering in place and heat transfer system to ensure the entire home stay nice and comfortable during the winter months.
