\$65,000

Looking for a large block with rear and front lane access, and two buildings for weekenders or storage, well this is the block for you. One building has a kitchen and lounge room with stairs at the back of the property leading into that building. The second building currently used to store items for the buildings was a bedroom and has an air conditioner. (please refer to photos for these buildings). A small shed features a shower over a bath and functional toilet with a spare also in the shed on concrete floor. Septic tank. Power and water connected to the property with updated switchboard. Electric hot water. Rainwater tank (requires pump to supply house with rain water), otherwise on town water. Some aging sheds at the rear of the property. Quiet street in small rural town 45km from Ouyen, 30 minutes to Sea Lake and Patchewollock, both which have great pubs and lovely food. It would be an ideal property if you're travelling and you want a base you can return to. Contact Trish on 0419977858 for inspections after 15/4/24.
