\$580,000 - \$630,000

Lots of homes can claim to be flexible and family friendly, many more can argue that they offer low-maintenance ease with elegance - few homes do so with the style and success that sets this inviting address apart. The appeal commences with a façade of exceptional character featuring stone highlights and precise lines behind a cleverly curated front garden and wide driveway that concludes with a secure double garage. Step inside and be greeted by the appeal of spaces that start with four welcoming bedrooms, or three and a dedicated study or work from home zone if so preferred, while two bathrooms include the main bedroom's ensuite. The enduring original quality of the bathrooms is abundantly, immediately apparent. A living and dining area featuring timber flooring - a signature attribute throughout - includes an open-plan kitchen equipped with a central meals island, generous bench space and well organized storage while to the rear, an under-cover alfresco retreat overlooks the low-maintenance backdrop. Proximity to Cashat Park, Robinsons Road shopping and Deer Park train station adds its own allure to a property with impeccable family and/or investment credentials.
